

Year 4 Homework Menu – Autumn 2

Chose at least one of the following activities to complete during this half term. Please hand in your completed work by Friday 13th December. Remember you get 10 house points for your team for completing your homework. Please put in your best effort and be prepared to share your work.

Art - Weaving

Can you create your own piece of weaving?
You could use coloured plastic bags, materials, paper, wool or another material of your choice.

Geography – Map Skills

Find a variety of maps that have four or six figure grid references and show you know how to use them.

Alternatively, demonstrate your ability to use the eight points of a compass.

Maths – Column Addition and Subtraction

Create posters teaching people how to use column addition and subtraction with two 4-digit numbers. Make sure you show what to do when you need exchanges. You could draw place value charts and counters to help your explanation.

Writing – Pet's Story

In our English lessons, we are writing stories from the perspective of a pet dog. Write your own story from the point of view of a different pet.

Science - Sound

How does sound travel? How do we hear sound? Answer these questions in a creative way such as a model or PowerPoint presentation.
