

Homework MENU

Chose at least one of the following activities to complete during this half term. Please hand in your completed work by **Friday 7th February**. Remember you get 10 house points for your team for every piece completed. Please put in your best effort and be prepared to share your work. Don't forget your [regular homework](#) as well.

Geography

Create an information booklet or PowerPoint about some of the world's most famous rivers. What can facts can you find out about them? Why are they so important?

Art

Create your own landscape painting or drawing.
Maybe you could go to the beach or woods. Taking a picture would help you then complete the work at home.

Science

Design your own experiment and observe how materials change state as they are heated and cooled,

Handwriting

Can you show your process using joined Kinetic Letters over the half term? We would love to see your start and end point! If you need a sheet with words using our joins, let me know.

Maths

Create a game that will help children learn times table facts or find factor pairs.

Geography

Investigate the different forms of renewable energy we use in this country. Create a poster or choose a different way to share what you have learnt.

Weekly Spelling

New spellings go home every Friday and are tested every Friday.

Daily Timetables

Play TTRS for a few minutes each day. If you can't use TTRS, you could chant your tables or ask a parent or sibling to quiz you on your facts.

Daily Reading

Please make sure you are reading every day. Remember to ask your adult to sign your green reading diary so you can earn badges!
